

PRESSURECARE

Pressure Relief & Patient Positioning

Trulife Overview

Trulife is an internationally based and managed group engaged in the creation, development, manufacture and marketing of niche healthcare products. In addition to Pressurecare pads for the Operating Tables, the Group activities encompass product ranges, Orthopaedics, Prosthetics, Breastcare and Wheelchair cushions. For further details on all our product ranges please visit our website: www.trulife.com

Trulife products are distributed by more than 300 distributor companies worldwide. Our primary markets are the USA, Canada, the UK and Ireland, where we have our own dedicated marketing organisations.

The Group is headquartered in Dublin, Ireland. European manufacturing, research & development and marketing operations are conducted through wholly owned subsidiaries in Ireland and England. Orthopaedic clinical services are provided throughout England, Scotland and Wales.

In the Americas, Trulife trades through wholly owned subsidiary companies. Customer service and distribution facilities are based in Jackson, Michigan, Poulsbo, Washington and Trenton, Ontario. Manufacturing and research & development of Orthopaedics, Prosthetics and Custom Breastcare products is conducted in Poulsbo, Washington, Jackson, Michigan and Trenton, Ontario.

Mission Statement

The core philosophy is a belief in serving customers' needs through excellence in product innovation, quality in everything we do, extensive education and training offerings, and development of patient care through committed and dedicated people.

[1] "In the UK Pressure Sores absorb around 4% of the National Healthcare expenditure"

[2] "2.5 million patients are treated for pressure sores in the USA"

Pressurecare Prevention of Peri-Operative Pressure Injury

Definition: Pressure Ulcer

'A pressure ulcer is localized injury to the skin and/or underlying tissue usually over a bony prominence, as a result of pressure, or pressure in combination with shear'
NPUAP / EPUAP 2011 [3]

Definition: Pressure Neuropathy

'In pressure neuropathy there is excessive pressure on a nerve root or a peripheral nerve leading to ischemia (not enough oxygen due to poor blood supply).. If the pressure continues, fibrosis tends to develop.' [4]

Who is at Risk?

All Operating Room (OR) patients due to level of Impaired Mobility.
Surgical patients still account for 20% to 30% of all pressure injuries.[5]
General Statistics on Prevalence of PUs
Germany (21.1%) [6], Australia (28.2%) [7], Italy (27%) [8]
US (11.5%) [9], Canada (16.5%) [9].

Areas Most at Risk

Bony Prominences – See Diagram
Head : Elbows : Sacrum : Heels : Shoulders : Hips : Buttocks : Knees.

Aetiology: What happens?

Prolonged Pressure ▶ Pressure on Blood Capillaries / Nerves
▶ Ischaemia & lack of Oxygen ▶ Skin Breakdown or Nerve Compression
▶ Pressure Ulcer / Neuropathy

Principles of Safe Positioning

▼ Level of prolonged pressure on bony prominences and nerve endings
▶ Avoid Circulatory and Respiratory Insufficiency
▶ Attain Optimal Surgical Position Safely
▶ Facilitate Role of Anaesthetist

Intervention - Pressure Injuries can be prevented! Use Preventative measures! Educate Staff!

Trulife offers an Extensive Range of Equipment for Pressurecare Management in the OR

The prevention of pressure injury assumes a fundamental role in health services economics and management. [10]

[10] ECONOMIC EVALUATION OF PREVENTION OF PRESSURE ULCERS IN INTENSIVE CARE UNITS

Andrade, Melanie 1*, Nogueira, Fernanada 2, Morais, Ernesto 3: EPUAP Annual Meeting 2011

The incidence of OR-acquired pressure sores can be significantly reduced by using the most effective pressure relieving and positioning devices available and by employing a few basic concepts in positioning care. Education of OR staff is paramount.

The Trulife Pressurecare Ranges were developed as a result of our commitment to provide improved levels of pressure care products to both patients and healthcare systems. Vast amounts of in-depth research have gone into the development of each range. The Trulife Pressurecare range offers a simple and cost effective solution with a comprehensive offering to cover all surgical procedures.

Why select the Trulife Range?

- Extensive range
- Different budgets considered
- Medical Grade Silicone
- Latex Free
- MRI Compatible
- X-Ray Translucent
- Biocompatible
- Reusable
- Cost Saving
- Made in Ireland

OASIS - THE ORIGINAL SILICONE SOLUTION

The Oasis range is an extensive range of reusable 100% silicone gel pads. The silicone we use is softer than both skin and underlying tissue. This means that pressure is relieved by the slight movement of the silicone gel and resulting dissipation of pressure/force across the product. It is the first range of products launched by Trulife in the OR field and remains a market leader in gel pads and positioners.

OASIS ELITE - LIGHTWEIGHT & PRE CONTOURED

The Oasis Elite range combines silicone gel and light weight foam with a precontoured surface to provide superior pressure relief and patient protection in the OR. Anatomical pre-contouring facilitates greater conformity between gel and body shape; weight is then redistributed over a larger area. Oasis Elite products are more than 50% lighter than comparable gel-only products. They are designed for stability, easier handling and manipulation by medical personnel during preparation and surgery.

AZURE - REDEFINING PRESSURECARE

The Azure range is the most advanced and innovative range of products available in the OR today. The Azure range offers the best pressure redistribution. Each product consists of two independent protective silicone layers that work in combination allowing the moulded products to effectively conform to the individual user's shape in a more contoured and less structured manner, resulting in effective protection against nerve damage and skin breakdown. The new approach by Trulife was to create a product that replicates and acts as an additional layer of protective tissue and skin. Azure has set a whole new standard of protection in the OR.

OASIS+ - A REVOLUTION IN PRESSURECARE

The Oasis + products are made from a medical grade silicone rubber. It is one of the most durable product ranges on the market today. The shape and design of the product maximizes air flow and promotes the ultimate in pressure relief. The material has hypoallergenic and anti slip properties helping to provide comfort and support to the patient.

Surgical Positions products are suitable for:

Supine **S** Prone **P** Lithotomy **L** Lateral **LL** Paediatrics **P** * Indicates use

S P L LL

P

AZURE PROFILE PADS

The Azure Table Pads combine the ultra-soft and lightweight silicone material on the base and the cured silicone gel on top, with a unique squared profile that cushions the body during surgery. The pads are up to 20% lighter than comparative gel pads.

S P L LL

**OASIS HIP PAD**

The Oasis Hip Pad is a flat pad specifically designed for use on hip fracture table tops.

CODE	DESCRIPTION	DIMENSIONS
OA035	Hip Pad	520 x 520 x 10mm

P

S P L LL

**OASIS PERINEAL TABLE PAD**

The Oasis Perineal Pad provides excellent protection to the sacral area, a point of maximum pressure. It is essential for all patients in the lithotomy position.

CODE	DESCRIPTION	DIMENSIONS
OA040	Perineal Table Pad	520 x 520 x 10mm

P

**INCUBATOR PAD**

This unique ultra soft foam pad provides a soft and comforting base for neonates while providing all-round protection from pressure sores and nerve damage.

CODE	DESCRIPTION	DIMENSIONS
OA300	Incubator Pad	620 x 340 x 12mm

P

S L LL

AZURE HEAD PROTECTOR

The dual layer Azure Head Protector is innovatively designed to contour to the individual patient's head, conforming comfortably while providing effective protection to the patient.

CODE	DESCRIPTION	DIMENSIONS
*AZ100	Infant/Adolescent/Adult	260 x 250 x 50mm

P * Infant/Adolescent only

P

OASIS ELITE PRONE HEAD REST

Developed in conjunction with the Operating Staff at a leading hospital, the Oasis Elite Prone Head Rest is anatomically designed so that the patient's head can comfortably rest face down with respiratory tubes in place. The unique design provides excellent support, stability, comfort and protection during surgery in the prone position, with openings on both sides. The product is lightweight, durable and easy to handle.

CODE	DESCRIPTION	DIMENSIONS
*EL142	Adolescent/ Adult	273 x 220 x 135mm
EL141	Adult	280 x 240 x 140mm

P * Adolescent only

S

OASIS ELITE SUPINE HEAD REST

This Supine Head Rest is ideal for positioning the patient during eye surgery and other supine procedures. Ergonomically shaped to position the patient's head, while effectively protecting against the onset of pressure sores.

CODE	DESCRIPTION	DIMENSIONS
*EL152	Adolescent	275 x 230 x 65mm
EL151	Adult	275 x 237 x 90mm

P

* Adolescent use only

S

L LL

OASIS ELITE CLOSED HEAD RING

Unique gel & foam combination conforms comfortably to the patient's head, this head ring is suitable for use in many surgical procedures.

CODE	DESCRIPTION	DIMENSIONS
*EL011	Infant/Adolescent	Ø140 x 34mm
EL012	Adult	Ø200 x 50mm

P

* Infant/Adolescent only

AZURE UNIVERSAL POSITIONER

This versatile and lightweight product can be used to position and protect the patient in variety of surgical procedures.

CODE	DESCRIPTION	DIMENSIONS
AZ500	Adolescent/ Adult	425 x 155 x 60mm

P * Adolescent only

P LL

OASIS ELITE PRONE LATERAL POSITIONING SYSTEM

The Prone/Lateral Positioning System from Trulife is the result of extensive research into the needs of Operating Room personnel for patients during surgical procedures in the prone/lateral position.

Designed with both patient and surgical staff in mind, this system offers the ultimate pressure relieving protection and effective positioning all in one.

CODE	DESCRIPTION	DIMENSIONS
EL905	Oasis Elite Prone/Lateral Positioning System	675 x 500 x 100mm
REPLACEMENT PARTS AVAILABLE:		
EL906	Upper Left Section /Lower Right Section	275 x 250 x 100mm
EL907	Upper Right Section /Lower Left Section	275 x 250 x 100mm
EL908	Mid Left Section /Mid Right Section	125 x 250 x 100mm
EL912	Base Plate	500 x 500 x 6mm

P

OASIS ELITE PRONE POSITIONER

The Prone Positioner gel and foam combination has been designed to provide effective positioning to the patient during surgical procedure in the prone position. For best protection, it is recommended to be used in conjunction with the Prone Head Rest.

CODE	DESCRIPTION	DIMENSIONS
EL903	Adult	610 x 530 x 130mm

P

OASIS ELITE LARGE PRONE POSITIONER

The Large Prone Positioner eliminates pressure on the abdomen and facilitates easy ventilation and circulation during long cases in prone position, i.e. surgeries to the backs of legs and laminectomy procedure.

CODE	DESCRIPTION	DIMENSIONS
EL904	Adult	1115 x 520 x 140mm

LL

OASIS ELITE LATERAL POSITIONER

This positioning device permits a safe, quick and easy transition from supine to lateral. The patient's lower shoulder fits into the integral channel to provide exceptional patient comfort and nerve protection. The Lateral Positioner is designed for use in hip replacement, shoulder, kidney and other procedures. The built-in headrest and auxiliary support assists in proper spinal alignment and surgical site access.

CODE	DESCRIPTION	DIMENSIONS
*EL900	Adolescent/ Adult	720 x 500 x 160mm

P * Adolescent only: Lateral Position

S P

OASIS ELITE DOME POSITIONER

This lightweight positioner can be used to position and protect the patient during various surgical procedures in all positions. It can be used in many different applications.

CODE	DESCRIPTION	DIMENSIONS
*EL210	Adolescent / Adult	350 x 150 x 75mm

P * Adolescent only: For Prone Position

S P L LL

OASIS ELITE FLAT BOTTOM CHEST ROLLS

Chest Rolls provide excellent support and stability. The unique gel and foam combination means they are up to 75% lighter than comparative gel products, allowing for easy manipulation and handling by OR staff.

AZURE LEG PROTECTOR

The Azure Leg Protector provides overall protection to the heel and leg area. Slightly raised behind the knee, the leg protector offers protection to the popliteal nerve and conforms superbly around the leg. Overall positioning, protection and alignment are the key features of this unique product.

CODE	DESCRIPTION	DIMENSIONS
*AZ400	Adolescent / Adult	515 x 180 x 40mm

P * Adolescent only

L

AZURE CRUTCH STIRRUP PADS

These Crutch Stirrup Pads were designed for use with various types of legholders to protect the nerves and blood vessels in the leg during lithotomy procedures. Lightweight and flexible, the dual layer Azure pads come in pairs and protect against skin shear and nerve injury. Supplied in pairs.

CODE	DIMENSIONS
AZ410	370 x 205 x 25mm

LL

OASIS ELITE LATERAL LEG POSITIONER

This product is used to position the legs in a lateral position for kidney surgery and hip surgery. In addition to comfort, it facilitates optimal surgical positioning. This positioner also allows for knee and hip flexion. To use: Place patient on side, place upper limb on top (gel part of the product), and place lower limb underneath ledge.

CODE	DESCRIPTION	DIMENSIONS
EL800	Adult	650 x 400 x 230mm

P

OASIS ELITE KNEE PAD

The Knee pad is used for various procedures in the prone position to protect the knees against pressure damage and the onset of pressure sores.

CODE	DESCRIPTION	DIMENSIONS
EL401/EL101	Adult	510 x 150 x 35mm
*EL402/EL102	Adolescent / Adult	400 x 150 x 35mm

P * Adolescent only

L

OASIS CRUTCH STIRRUP PADS

The Oasis Crutch Stirrup Pads are designed to fit most types of stirrups. Supplied in pairs, they come in a variety of sizes.

CODE	DESCRIPTION	DIMENSIONS
OA090	Adolescent / Adult	320 x 220 x 10mm
OA091	Adolescent / Adult	395 x 245 x 10mm
OA092	Adolescent / Adult	520 x 300 x 10mm

AZURE HEEL PROTECTOR

The heel area is one of extreme risk during any surgical procedure and special attention should be given to avoid any unnecessary damage. These lightweight protectors provide heel protection as well as stability and support. Supplied in pairs.

CODE	DESCRIPTION	DIMENSIONS
AZ401	Infant/Adolescent/ Adult	190 x 175 x 30mm

OASIS ELITE HEEL PADS

The Oasis Elite Heel Pads provide support and maximum protection for the heels, even during the longest surgical procedures. They support the Achilles and effectively remove pressure from the heels. Supplied in pairs, the products are lightweight and easy to use.

CODE	DESCRIPTION	DIMENSIONS
*EL130	Adolescent / Adult	180 x 100 x 70mm

P * Adolescent only

OASIS HEEL PADS

These 100% silicone gel pads are suitable for use in any supine procedure where the heels are at risk of skin breakdown and damage.

CODE	DESCRIPTION	DIMENSIONS
*OA130	Adolescent/Adult	180 x 100 x 70mm

P * Adolescent only

OASIS + HEEL PADS

The Oasis + Heel Pads are anatomically designed for better pressure relief. The raised sides promotes additional support and the unique design enhances air-flow.

CODE	DESCRIPTION	DIMENSIONS
OP130	Adolescent/Adult	151 x 134 x 66mm

P

OASIS HEEL CUPS

Oasis Heel Cups are designed to provide pressure relief for patient's heels. They are suitable for use during and after most surgical procedures and can be used also for patients who are confined to bed or are in a day chair.

CODE	DESCRIPTION	DIMENSIONS

Positioning Guide

SUPINE POSITION

INCLUDES TRENDELENBURG & REVERSE TRENDELENBURG

The patient is on their back with face toward ceiling, legs are uncrossed and arms are at the side or on arm boards.

USES

- Administration of General Anesthesia
- Abdominal Surgery
- Open Heart Surgery
- Surgery on Face, Neck or Mouth
- Most Surgery on Extremities

Tested in accordance with protocol for interface pressure management Ref: FSAT.0017

“ Any positioning device used to reduce pressure on patient’s body parts and prevent tissue damage should have the documented ability to reduce capillary interface pressures to 32mmHg or less (5) ”

⁵ Hendrick, J. & Thomson et al. "Pressure reduction products: making appropriate choices" Journal of Enterostomal Nursing 20 (Nov/Dec 1993)

Each and every product in the Trulife Pressurecare ranges have been subjected to the most rigorous of durability tests to ensure that they will withstand normal day to day handling in even the busiest surgical environment. In the design phase, tests are conducted in relation to the every day effects of compression, rolling, pulling and tearing.

The Trulife Pressurecare ranges consist of the most extensive range of gel pads and positioners available and can be used for a variety of applications in practically every surgical procedure.

The products are manufactured under strict ISO: 13485:2003 standards and carry the CE mark.

HOW CAN THE PRODUCTS BE CLEANED?

All products can be easily cleaned using standard OR environment detergents. It is not advised to soak the products. The products are not suitable for use in conjunction with an autoclave.

The Oasis + range can also be cleaned under running water (This will improve the adhesiveness of the product.)

The Oasis + range can be autoclaved. (Please follow instructions of autoclave manufacturer as appropriate.)

CAN THE PRODUCTS BE USED IN DIRECT CONTACT WITH THE PATIENT'S SKIN?

All products are latex-free and non-allergenic. The gel used in the products is a cured silicone and does not flow. It is an inert material and does not support the growth of bacteria.

ARE YOUR PADS X-RAY TRANSLUCENT?

Our pads are x-ray translucent, however, higher radiation levels may be needed. For more information on this, please contact your distributor.

CAN THE PRODUCTS BE HEATED OR COOLED?

The products can be cooled to -12°C without any adverse effects. As adhesion of velcro can be weakened by low temperatures, products with velcro should be allowed to return to room temperature prior to use.

The products can also be heated to a maximum of 40°C if required and can be safely used in conjunction with heated blankets.

CAN THE PADS BE USED WITH MRI EQUIPMENT?

The materials used in our Oasis/Elite and Azure products are a combination of PU film and silicone. They contain no ferrous material and so are considered MRI friendly.

WHAT IF THE PRODUCT GETS CUT?

While a repair kit is available, in the event of the product being cut, it is highly recommended that the product be discarded to avoid the risk of infection.

For the Oasis +range, If the product is cut, it is safe to use as long as the cut is cleanable.

DO THE PRODUCTS CARRY A GUARANTEE?

All products are guaranteed against manufacturing defects for a period of 2 years.

PLEASE NOTE:

- Due to our manufacturing process a slight variation in colour may occur between individual products.
- Product dependent a tolerance of +/- 10mm is applied to all product dimensions.
- The position of the model in certain images is intended to display the products only and may not be surgically accurate in all cases.
- We offer a guideline to help select products for different surgical positions. Please refer to good clinical practices when selecting products.
