

VICON TRACKER THIRD PARTY SOFTWARE INTEGRATION PROVIDES YOU WITH THE QUALITY, FLEXIBILITY, AND SUPPORT NEEDED TO ACHIEVE YOUR NEXT BIG PROJECT.

INDUSTRY	BENEFITS	THIRD PARTY SOFTWARE INTEGRATOR	INTEGRATION METHOD		
			TrackD	VRPN	Direct
CAD Modeling Virtual Prototyping Walkthrough	Whatever your industry, Vicon gives you the ability to take greater advantage of familiar design tools. This allows you to collaboratively design and review new products, bring your products to market quicker than ever before and reduce time and development costs. Vicon's easy-to-use Tracker software and high quality hardware allow you to remove many of the difficulties normally associated with these solutions. With Vicon, it's time to start concentrating on innovation.	Mechdyne Inc. (CATIA)	X

Scientific Visualization	Need to visualize a massive disparate dataset? You may already be using one of these software applications, but combining applications with Vicon means you have the ability to navigate and view your data in a unified environment, giving you increased understanding and better decision-making capability. 		Schlumberger (Inside Reality, Petrel)	X		
Commercial Software Libraries	The quality of any simulation or immersive environment is only as good as the sense of immersion it provides. Vicon maximizes the depth of information by providing high quality and reliable tracking within your CAVE or using your Powerwall. By integrating Vicon's low-latency and accurate data, you can be assured the quality of research is at its highest possible level.	Mechdyne Inc. (CAVElib)	X
