Mechanical Movements **Sizes**

- Head Rest
 - Kidney Surgery Position
 - Leg Rests, Up / Down
 - Leg Rests, Right / Left
 - Central Locking

• Width x Length	: 610x2080 mm (0M-9T) : 610x2200 mm (0M-6N)
• Height (min)	: 845 mm (800 mm 0M-6N)

• Height (max) : 1240 mm (1200 mm 0M-6N)

*Max. - min. dimensions are measured with mattress.

Üzümcü OM-9T and OM-6N operating tables are designs which can be adjusted to get positions suitable for carrying out all surgical operations, produced by considering the patient and user

OM-9T / OM-6N

Angles

Sliding Movement	: 300 mm	• Leg Rest Up / Down	: +60°/-85° (+65°/-80° OM-6N)
Lateral Tilt Movement	: +20°/- 20°	Leg Rest Parallel Movement	: 90°
Back Rest Movement	: +70°/- 25° (+90°/- 40° 0M-6N)	Head Rest Movement	: +35° / - 80°
Trendelenburg	: +25°	Kidney Surgery Position	: 300°
Reverse Trendelenburg	: -25°	• Flex / Reflex Position	: 210° / 115°

OPERATING TABLES & ACCESSORIES

Detailed Specifications

< Functional Design & Wide Range of Accessory Options

- Solutions ensuring to reach the position required by any kind of surgical operations with its wide range of accessory options
- Telescopic body specifications enabling height adjustment at different levels
- Wheel system which is made of ABS plastic, with high multi-directional mobility and 125 mm in diameter (OM-9T)

< Sliding

 Image reception ability in a wide area without disturbing the sterile environment with the flouroscopy device by its slideability within 300 mm on horizontal plane

< Optimal Clearance In Surgical Area

 Maximum surgical area visibility and operational success with kidney surgical elevator integrated on the table and can be adjusted up to 295° (120 mm)

< Different Mattress Options

- High-quality image reception facility with table top made of compact material with high x-ray permeability
- Visco or polyurethane mattress options ensuring patient comfort by taking shape of body parts of patient and preventing decubitus prophylaxis
- Cleanable and sterilizable mattress for decontamination of operating room with its seamless structure and demountability

< Modular Design

üzümcü

- Design that can get different angles according to the operation's kind, demountable head and foot plates
- Design consisting of one, two or four parts and suitable for connecting foot plate
- Unlimited perineal accessibility with demountable foot plate

OM-9T / OM-6N

< Easy Approach For C-Arm

table with X-ray permeable table top.

C-arm scopy and surgical microscopes

• Attachment system mountable on stainless steel rail integrated on both sides of the table, enabling connecting a new accessory without demounting existing accessories and preventing loss of time.

Possibility to have high image quality from all parts of the

• Suitable base structure for easy access and approach of the

< T Base Specifications

- T Base enabling surgical team and equipment to approach the table optimally and contributing to operational success
- 316 quality stainless steel body resistant to fractures and corrosion
- Silent and nonvibrating operation

< Remote Control

- Rapid recall in case of need by storing five different surgery positions
- Position reset by a single button
- Hand, body and remote control system ensuring easy use in endosurgery operations thanks to the illuminated screen

OM-9T Extra Functions

Wheel system increasing mobility

3-layer visco elastic mattress ensuring patient comfort

Angles

Lateral Tilt Movement	: +30°/- 30°	• Leg Rest Up / Down	: +60°/-85°
Back Rest Movement	: +70°/- 35°	Leg Rest Parallel Movement	: 90°
Trendelenburg	: +20°	Head Rest Movement	: +35° / -80°
Reverse Trendelenburg	:-25°	• Flex / Reflex	: 215°/110°

- Modular design taking shape by different surgery operations with high stability
- Solutions ensuring to reach the position required by any kind of surgery operations with its wide range of accessory options
- Telescopic body enabling height adjustment at different levels

< Ergonomic Positioning Arms

• Trendelenburg/reverse trendelenburg and spine positioning arms that are easily accessable and enables ergonomic use

< Table Top Specifications and Lateral Use

- Cleanability and sterilizability suitable for decontamination with its seamless structure and demountability
- High-quality image reception facility, table top being made of compact material with high x-ray permeability
- Right-left lateral tilt arm, practical to use and integrated with the operation table, enables mobility for the surgery team and can be hidden under table sitting plate when not in use

< T-Base Specifications

- T-Base contributes to operational success by enabling optimal approach of surgery team and equipment to table
- 316 quality stainless steel body resistant to fractures and corrosion
- Silent and non-vibrating operation

< Breaking System & Hydraulic Lever

- Wheel system enabling mobility in the operation room
- Brake system enabling positioning in the required position
- Telescopic body with height adjustment at required level by hydraulic pedal
