Heathrow Scientific®

Manufacturer of quality laboratory products

Manufacturer of quality
laboratory products

design | function | innovation

Welcome to the 2014 Heathrow Scientific Catalog

Inside you will find hundreds of quality laboratory solutions available through our distinguished group of worldwide distributors.

We are proud of the many new items you will discover including our newest equipment addition the **SeaStar® Vortexer** (page 3). Because of the unique head design there is no longer the need to swap out head units.

We have extended our line of Work2Store™ expanding racks. The new **Work2Store™ Micro** (page 13) not only expands, it is reversible as well. Load up 64 micro tubes (0.5 mL) on one side or flip it over and load up the reverse side with 96 micro tubes (0.2 mL). Either side incorporates the expanding feature of this rack to reduce sample handling time.

From concept to completion, we look forward to making products that offer design, function and innovation for laboratory professionals everywhere.

function

innovation

Mixing/Centrifugation

High-quality instruments, with advanced features for a vast range of protocols.

NEW

Sea Star® Vortexer

Multi-purpose, maximum convenience

This sleek and modern designed vortex mixer is capable of meeting the mixing requirements of the most popular consumables used in today's lab without the need to swap out head units. The truly innovative design makes maximum use of the space available, providing holding slots for no less than five different sizes of tube and a standard assay plate, while the traditional center cup can be used for quick hand-held mixing of a vast range of tubes and vessels.

- Variable speed rotary dial provides finite speed control during vortex mixing
- Stable elastomeric device feet, provide vibration dampening and prevent movement during operation
- Innovative head can be removed for cleaning purposes
- High impact ABS body shell

holding slots for no less than five different sizes of tube and a standard assay plate

Holding capacity (plus a center cup)

- Assay Plate x 1
- 50 mL conical tubes x 2
- 15 mL conical tubes x 2
- 1.5/2 mL microfuge tubes x 4
- 0.5 mL microfuge tubes x 6
- 0.2 mL microfuge tubes x 24

part no.	description	
HS120209	Sea Star® Vortexer 90-110V AC, 50/60 Hz	
HS120212	Sea Star® Vortexer 220V AC, 50/60 Hz	
HS120214	Sea Star® Vortexer 220V AC, 50/60 Hz	
HS120210	Sea Star® Vortexer 220V AC, 50/60 Hz	

Specifications

- Speed Range: Variable 500-3000 rpm (shaking to vortexing)
- Orbit: 4.2 mm
- Control: 3 position switch—continuous, intermittent, manual, and off
- Weight: 8.5 Lb/3.8 Kg
- Dimensions: 173 W x 198 D x 198 mm H (with Headpiece in place)
- SGS-US-C, CE, CB Scheme, RoHS 2, PSE, and WEEE compliant
- Two Year Warranty

Screw-Top Tubes with O-Ring Cap

Safer long term storage

Screw-on polypropylene lids with TPE O-Ring to create an excellent seal for secure storage.

- Clear polypropylene tubes provide excellent view of samples
- Skirted, self-standing base makes filling and retrieval easy
- Ideal for sample processing and storage application

A autoclavable **D** disposable

Frosted writing area

Sea Star® Digital Orbital Shaker

Multipurpose compact universal shaker

The Sea Star® is packed full of high-end design features making it a versatile shaker for a vast range of protocols, yet very affordable.

- No-stop optical motor feedback, enables the unit to instantly adjust to weight load changes and unbalanced loads for truly reproducible results
- Suitable for use in incubators and cold rooms within the stated temperature range
- Soft-start feature reduces spill instances from full vessels
- A high weight loading of 4.5 kg, with an overload protection cut out
- Universal Hi-Lo platform and bungee cords allows you to create your own holding matrix for vessels of all shapes and sizes
- Back lit display is easy to read. Time and speed can be separately set
- Very low start speed for sensitive sample agitation, with a high top end and good stability for more vigorous applications
- Suitable for worldwide voltages 110–240V, supplied with 4 different plug types

Bungee cords allows you to create your own holding matrix for vessels of all shapes and sizes

part no.	description
HS4010A	Sea Star® Digital Orbital Shaker, 110–240 VAC, 50/60 Hz
replacement parts	
HS4010ARMT	Rubber Mat
HS4010ARBG	Bungee cords, pack of 8
HS4010ARPW	Universal Power Adapter

Specifications:

- Speed range: 20 to 300 rpm
1 rpm increments
- Orbit diameter: 19.2 mm
- Timer range: 0 to 49 hours, 1 second increments or continuous
- Maximum load: 4.5 kg
- Power: 110 to 240 VAC, 50/60 Hz with 4 interchangeable plug adapters
- Ambient conditions: 4° to 40°C; 20 to 80% RH, non-condensing
- Platform interior dimensions: 279 mm W x 279 mm D
- Overall dimensions: 314 mm W x 183 mm H x 305 mm D
- One-year warranty

Sea Star® Package includes:

- Sea Star® Shaker
- Universal Hi-Lo platform
- Skid-free rubber platform mat
- 8 Bungee cords set
- Universal power adapter 110–240V 50/60 Hz, with 4 interchangeable plug types

Conical Centrifuge and Sample Tubes

Available in natural and pure black for light sensitive samples

Made from 100% virgin polypropylene, certified DNase, RNase and Pyrogen free and capable of withstanding high centrifugal forces. The natural colored tubes offer superior clarity, while the pure black version protects and prolongs the life of more light sensitive products.

**RNase-
DNase-
Pyrogen-
FREE**

Microtubes – 0.2, 0.5 and 1.5 mL

- Attached flat caps for easy one handed use, fully autoclavable
- 0.2 mL is suitable for Thermal Cyclers. The slender shape evenly distributes uniform heat
- 0.5 and 1.5 mL versions have a frosted writing area and a syringe pierceable cap

A autoclavable **D** disposable

Large Capacity Tubes – 15 and 50 mL

- Lot-to-lot traceability with easy tear packaging
- Writing area and flat polyethylene lids for easy labelling
- Imprinted graduations and a self-standing version (only in clear bulk pack)
- Reusable card used for the racked versions, making them more environmentally friendly

D disposable

Packaging features:

- Easy-tear opening
- Labeled packaging for lot-to-lot traceability (Inner pack- clear tubes; case packs- black tubes)

Sprout® Mini-Centrifuge

SnapSpin™ rotors for easy and fast rotor exchange.

The Sprout is ideal for quick spin downs, micro-filter cell separations and HPLC samples. It is compact, easy to use and comes with a host of extras.

- Small footprint and quiet operation
- Palm-shaped lid, suitable for left or right handed users—allows quick extraction of tubes
- SnapSpin™ Rotors are tool-free for a fast and easy exchange
- Weighted rubberized base eliminates potential movement and further dampens vibration and noise

Sprout® Package includes:

- Sprout® Mini-Centrifuge
- 6 place 1.5/2.0 mL tube rotor
- 16 place 0.2 mL tube rotor (singles, or 2 x 8 Strip)
- 6 tube adapters 0.2 mL
- 6 tube adapters 0.5 mL
- Storage case for rotors and adapters
- Tube rack
- Power cord

Gusto™ High-Speed Mini-Centrifuge

Maximum speed with minimal space

This compact centrifuge is ideal for protocols calling for fast spins with a higher RCF requirement. Ideal for PCR®, microfilter cell separation, clinical & diagnostic applications, and HPLC protocols.

- Compact footprint and brush-less motor for quiet operation and low vibration
- Select and set the digital speed display in xg or rpm
- Sample imbalance and tilt safety cut out
- Safety interlock lid prevents opening while rotor is turning
- Back lit display showing time, speed and operational information on the same screen
- Quick-Spin button for short spin requirements
- Suitable for worldwide voltages 110 to 240V, supplied with 4 different plug types
- Made from UV-resistant plastic, increasing its useful life under harsh light conditions
- Double insulated construction
- Push button lid release
- Manual override allows user to open lid in case of power failure

Tube Racks

From disposable to interlocking racks and everything in between, we have you covered.

Universal Tube Rack

Ideal for firmly holding a wide range of tubes and vessels

Quickly change tube sizes with this adaptable polypropylene rack. Open the well with a turn of the knob or directly insert a tube into the opening.

- Holds up to 12 similar size tubes
- Imprinted references for easy identification
- Generously-sized handles for easy transport
- Accepts tubes and vessels from 16–30 mm in size
- Not recommended for cleaning in autoclave.
- Measures 194 x 140 x 51 mm

Adjustable opening holds different diameter tubes

part no.	tubes	wells	color
HS24330A	15–50 mL	12	Blue ■

Grab Rack™

Rack features silicon grips to hold tubes in place

Turn the rack over and the tubes will not fall out! **Great for discarding liquids while tubes stay in place.**

- Tubes insert and extract with a gentle push or pull
- ABS rack with silicon gripping fingers. No assembly required
- **Not recommended for cleaning in autoclave**
- measures 259 x 127 x 49 mm

Hold and pour feature

HS24371A	Grab Rack	16 mm	50	White ■

NEW

Adapt-a-Rack™

Flexible Multi-Tube Rack

Capable of holding different size tubes in each available slot as the well literally adapts to your tube size to hold firmly in an upright position. The design enables you to hold 12 mm to 30 mm (5 mL to 50 mL) tubes simultaneously and still allow full viewing of the tube label

- Racks can be linked together for additional holding capacity
- Open sides allow for label viewing
- Flat base to hold tubes upright
- Linked racks should be supported underneath when carrying
- Available in solid or combination colors for application, end user or environment identification.
- Single rack measures 181 x 56 x 76 mm, two racks per pack

Available in solid or combination colors

Acrylic Holder for Microtube Racks 80-Well see page 81

Interlock for larger protocols

3-Way Racks

Interlock multiple racks to increase tube storage

- The tiered rack makes sample transfer and loading an easier process.
- Polypropylene racks connect to one another on either end.
- Finger slots are molded into the rack making them easy to pick up and move
- Lowest level holds individual 0.2 mL tubes or strips of 8 or 12 tubes.
- Middle tier holds 0.5 mL tubes
- Top tier holds 1.5 mL tubes
- Rack measures 164 x 123 x 62 mm. Pack of 6

PCR® Racks Reversible

Removable hinged lid fits both sides

Flip this polypropylene reversible rack to the size of tubes you need.

- PCR® side of the rack holds 8 or 12 x 0.2 mL tube strips or individual tubes
- Opposite side holds 0.5 mL tubes
- Both sides of the rack have 12 wells for 1.5 mL tubes
- Autoclavable. Measures 206 x 131 x 54 mm. Pack of 5

A autoclavable

part no.	tubes	wells	color

*Assorted colors: blue, green, pink, yellow, and orange.

Reversible Racks 96-Well

Easy-to-grasp tabs for sample handling and storage

Flip polypropylene rack from 96 wells for 0.5 mL tubes on one side to 96 wells for 1.5/2.0 mL tubes on the other side.

- Wells are arranged in standard 8 x 12 array
- Handy lid snaps into place via tabs on each end of rack
- 0.5 mL wells separated by molded-in grid lines, making them easier to see
- Raised rings around the 1.5 to 2.0 mL wells make tubes easier to remove
- Rack measures 246 x 121 x 50 mm. Pack of 5

A autoclavable

*Assorted colors: blue, green, pink, yellow, and orange.

Tube Rack 20-Well

Interlock multiple racks to increase tube storage

Tubes sit high in the rack on two levels to help easily identify labeled tubes.

- Polypropylene racks lock together on each side
- Easily remove tubes using finger slot on front of rack
- Racks have large molded coordinates for easy tube identification
- Measures 213 x 90 x 50 mm. Pack of 6

A autoclavable

part no.	tubes	wells	color
HS4284A	0.5/1.0/1.5/2.0 mL	20	Blue

PCR® Racks 96-Well

Perfect for pre- or post-PCR® sampling

- Sturdy polypropylene rack accommodates individual tubes or strips of 8 or 12 tubes.
- Removable hinged lid lies flat
- Tube wells are easily identified with embossed numbers and letters
- Autoclavable. Rack measures 130 x 98 x 33 mm. Pack of 5

Each Heathrow Scientific Microtube Storage boxes is:

- Designed for quick visual identification
 - Uniform wells with location ID
 - Tube capacity is indicated on the outside of the box
 - Translucent vibrant colors with a frosted labeling area
 - Debossed with a distinctive wave design
- Manufactured out of polypropylene

Work2Store™ & Work2Store™ Micro Expanding Storage Boxes

Single rack, double function

Reduce sample handling time and the need for several racks when working with samples for cold temperature storage. Patent-pending opening and closing mechanism allows the rack to expand, creating needed room for sample manipulation. Then simply collapse the rack back to its compact form and it is ready for the freezer. Temperature range -80 to 121°C. Two versions now available the original for holding 1.5/2.0 mL cryo and micro tubes and now the new Micro reversible version for holding 0.5 mL and 0.2 mL tubes (see below)

- Instantly creates more working space
- Helps reduce potential cross contamination
- Stops opened microfuge lids from interfering with other wells
- Stackable, autoclavable and with alphanumeric well identifications
- Will fit into standard 2" (53 mm) freezer racking

Work2Store™

- Clear lid locks the rack together for safe handling and transportation
- Wells have a center depression to stabilize conical tubes and a cryogenic vial lock for one handed cap removal
- Holds 64 x 1.5/2.0 mL cry and/or micro tubes

A autoclavable

Cardboard Micro Tube Boxes

Safe micro tube storage

These low profile boxes are available in two sizes to accommodate standard 0.5 mL and 0.2 mL micro tubes and vessels of a similar size. They are designed to ensure that the tubes contained will remain in their appointed well even if the box is tipped or knocked when the lid is in place. They come complete with well dividers in packs of 10

- Store in mechanical freezers or vapor phase LN₂*
- Will fit into most standard freezer racking
- 0.2 mL tube (9.5 mm max) version has 169 wells in a 13 x 13 format
- 0.5 mL tube (12 mm max) version has 100 wells in a 10 x 10 format

HS120221	Cardboard Micro Tube Boxes	0.5 mL	100	133 x 133 x 41 mm	Pk/10

*Only tubes capable of being stored at the low temperature required must be used.

NEW

Flatpack Freezer Boxes

Reusable, economical and moisture resistant plastic

These easy self-assemble boxes come flat-packed, ensuring valuable lab space is not taken up storing the boxes before they are needed. Made from corrugated polypropylene, they are more durable than card boxes as they are not susceptible to moisture, so they can be frozen and thawed numerous times without a problem.

- Flat shipped boxes for convenient storage and quick assembly.
- Pre-assembled dividers included with the boxes.
- Store down to temperatures of -80°C
- Holds 81 x 12 mm (max. diameter) tubes in a 9 x 9 format
- Complete with well dividers in packs of 10

Store down to temperatures of -80°C

Cardboard Cryogenic Vial Boxes and Partitions

For storage of small samples and tubes

Select the size of the box required and match the partition to your tube requirements.

- Store in LN₂, or in mechanical freezers
- Colors allow for easy identification and sorting purposes
- Bottom vent holes to allow quicker circulation and removal of cold air, vapor or LN₂
- All box footprints are 133 x 133 mm, select from two different heights. Pack of 12 (**Order partitions separately**)

Foam Tube Racks

High storage, minimal footprint

Lightweight microtube racks are ideal for long-term studies or tube storage.

- Two-piece racks are constructed of expanded polystyrene (EPS) foam
- Extra spacing between wells allows easy gripping with fingertips
- Racks stack securely with nesting features on lid and base
- Holds 1.5 and 2.0 mL microtubes. Pack of 10

part no.	wells	l x w x h, mm
HS4282	100	336 x 95 x 73
HS4283P	50	210 x 110 x 71

(order partitions separately)

Cardboard Tube Racks and Partitions

A low-cost way to organize your tubes!

Economy cardboard racks offer a quick and inexpensive solution with the added convenience of disposing after use.

- Write-on surface for descriptions or self numbering systems. Boxes measure 145 x 145 x 122 mm. Pack of 10 (Order partitions separately)
- Partitions supplied flat—packed for space-saving storage
- Partitions come in two sizes. Wells measure maximum of 17.5 mm and 29.5 mm dia. Pack of 10

part no.	description
HS2860M	15 and 50 mL Box and Lid
HS2860P	50 mL, 16 Cell Partition (4 columns x 4 rows)
HS2860T	15 mL, 36 Cell Partition (6 columns x 6 rows)

Transformer™ Cube

For storage of large samples and 15 and 50 mL tubes

Robust, rugged polypropylene construction complete with two Snap-In grids

- Hold 15 mL and 50 mL tubes securely upright in deep grid wells
- Locate tubes easily with keyed lid, imprinted grid and first tube orientation
- Use without grids for larger sized product storage
- Fill with ice and use as a temporary low temperature workstation—ideal for teaching labs or those with limited bench space
- Clear lid, translucent sides and autoclavable
- Measures 125 x 125 x 129 mm, Pack of 5

**Holds either
15 mL or
50 mL
samples**

OneRack®

Test Tube Racks

Tough and more highly resistant to acids, bases, solvents and heat

These durable racks are molded in a single, continuous piece so no assembly required and there are no detachable pieces.

Delrin® fiberglass-reinforced polyoxymethylene (POM):
Offers the highest chemical and heat resistance (-40 to +140°C)

- Autoclavable, available in half and full rack sizes for 5 tube diameters

Polypropylene:

Offers good chemical and heat resistance (0 to 110°C)

- Not recommended for autoclaving, available in the full size for 2 tube diameters

Both:

- Have molded coordinates for tube orientation
- Designed to be stable when used in water baths
- Have flat labeling area for easier identification
- Available in 5 different colors. Cases of 8

Pipetting

Whether it be dispensing or aspirating microliters or milliliters, we offer you precision at your finger tips.

Pearl™ Pipettes Adjustable Volume Precision liquid handling

A complete range of single channel pipette volumes to cover all your possible needs. The sleek ergonomic design and reduced plunger pressure help reduce the chance of RSI, as the pipettes require 2/3rd the operation pressure of most standard pipettes. Each pipette is tested in accordance with standards and a calibration certificate is supplied. Manufactured in accordance with ISO9001 and GLP regulations.

Slight downward slant to tip ejector button reduces hand fatigue, incidence of repetitive strain injury (RSI)

Volume adjustment and low-force dispensing all in one button for convenience

Finger hook

- Internal metal parts for increased accuracy and calibration stability
- Easy volume adjustment with locking tab to prevent accidental change
- Separate tip ejector and a large digital volume display

A autoclavable

Isolated volume locking ring prevents accidental volume changes

3-position volume display

SPECIFICATIONS:

Power: Manual
Filter: PTFE/25 mm dia / 0.45 µm filter in PP housing
Pipettes: 1 to 50 mL, glass and plastic
Pipette nozzle: polypropylene, autoclavable
Dimensions: 180 x 45 x 120 mm

Magnetic wall mount included

RF1000™
 pipette controller

Lightweight and easy to use!

The RF1000™ is a manual pipette controller and is uniquely designed for one-handed operation. Simply squeeze the main bulb and push the toggle forward to aspirate or back to dispense. Push the blowout bulb to expel any liquid remaining in the pipette.

- Tapered silicon pipette adapter allows a large range of pipette sizes and makes to be used. Replaceable when worn
- Accepts common, and readily available replacement filters unlike other pipette aids whose filters are custom. This will help reduce total cost of ownership over time
- Includes a magnetic/wall mountable holder and 0.45 µm filter
- Overall dimensions 180 x 45 x 120 mm.

Multi-Channel Reagent Reservoirs

Designed and packaged for superior handling!

Our multi-channel reservoirs are superior in every way with thicker walls, crush-resistant "turrets" at the corners, easy pour spouts, 25 mL graduation marks, and tabs to prevent stacked reservoirs from sticking together.

- Tapered reservoir bottoms into a narrow trough to aid full sample recovery
- Sterile versions are individually sealed in Sani-Tear HDPE packets and gamma-irradiated in an ISO-Certified US facility. Traceable certificate available on request

Dual Solution® Reservoir

Innovative shape guides and protects pipette tips

Polypropylene reagent reservoir has a standard 50 mL basin on one side and 12 individual 5 mL basins on the other side.

- Angled wells guide pipette tips toward a center position to help avoid cross contamination and waste
- Imprinted wells identify samples; loose-fitting lids prevent evaporation and contamination
- Non-sterile. Pack of 25 reservoirs and 25 lids

part no.	description
HS20821A	Dual Solution Reservoir

Two basins in one

RF3000™ pipette controller

Packed with features for comfortable and accurate pipetting

The powerful pump offers rapid, yet sensitive aspiration and dispensing, has adjustable valves and is microprocessor controlled for constant reliability and accuracy.

- Operates with 110–240 volt electrical supplies worldwide
- Long-life Li-Ion Battery, with quick charge—up to 20 hours continuous use
- UV resistant housing—longer lasting when exposed to UV sterilizing
- Universal grip and soft coated triggers with direction indicators, for right or left handed users
- Ergonomically balanced in the hand with a loaded pipette
- Bright LEDs indicate three operation modes, High, Low and Gravity, toggled by repeatedly pressing a large mode button that is in easy reach of your thumb when in use
- Five different colored nose cones included to help differentiate department, task or user, as well as a labeling area on the side of the unit
- Filters are readily available, so you are not tied into a pipette specific brand—helps reduced the total life costs of ownership verses other makes of pipette aids
- An adapter can be fitted to the nose cone to stabilize small volume and thinner pipettes
- Low battery indicator; can be recharged when in use

Pipette Tip Disposal Box

Quick flip of port cover makes tip ejection easy

Convenient for one-handed disposal of used pipette tips. Eliminates any need to handle pipette tips used with hazardous fluids.

- The 3/8" (10 mm) thick acrylic provides protection from Beta radiation
- The large, hinged lid allows easy disposal of contents
- Suggest using in conjunction with small Biohazard Disposal Bags (page 71), if hazardous fluids are not acrylic friendly
- Measures 154 x 171 x 206 mm.

part no.	description
HS234634	Pipette Tip Disposal Box

Rubber Pipette Filler

This rubber pipette filler is designed for efficient one-handed operation. Control air evacuation, liquid uptake, and liquid dispensing with three valves, each containing a chemical-resistant stainless steel ball.

- Pinch release valve for smooth liquid flow
- Filler fits standard size pipettes
- Order the red pipette filler for safe pipetting of caustics. It does not contain carbon black and will not smudge
- Filler measures 54 x 54 x 130 mm

part no.	description

Vacuum/Pressure Bulb

Ideal for gas sampling, or for pumping gas through apparatus. This heavy-wall bulb has two rubber valves with PVC connections.

- Bulb capacity is 85 mL
- Use with 7.4 mm inner diameter (tubing not supplied)

part no.	capacity
HS20631B	85 mL

Safety Bulb Pipette Filler

Features a white ABS attachment containing a silicone conical adapter that seals around pipettes without twisting. Pipette does not contact hard plastic, which reduces the risk of cracking and chipping. Pack of 3.

- Comes with elastic band for hanging on reagent bottle or wrist
- Filler fits standard size pipettes

part no.	capacity	OD
HS20623	15 mL	41 mm

A. Latex (Natural Rubber) Dropper Bulbs

Flexible, easy-to-attach bulbs designed for use with Pasteur pipettes, small pipettes, and medicine droppers. Available in natural color. Pack of 72.

B. Rubber Bulbs

Contoured shape and heavy-wall neck increase grip for **easier use with pipettes and syringes**. The 150 mL capacity (HS20630E) red bulb has reinforcing ribs for use with large pipettes. Bulbs are individually packaged.

Slide Staining Tray Set

Reduce possible cross contamination and messy work areas

Stain, rinse and dry slides on a single working tray. Made of a polypropylene and polyethylene blend, this rugged staining tray is an economical alternative to metal versions.

- A clean and fresh working surface area every time
- Up to eight slides fit comfortably onto the base and the deep well holds up to 38 mL
- Compact size and recessed handles for easy transport from work area to sink
- Two convenient pour spouts for quick dispose of unwanted liquid waste
- Dark lid protects slides for light sensitive applications
- Pack of 4 base trays and 1 lid

A clean work surface every time!

droplet™

Blood Collection Tray

Designed with phlebotomists in mind!

Lightweight, roomy and easy-to-clean Droplet™ Blood Collection Tray. Keeping a clean and organized tray has never been easier. Wash the ABS tray as needed, and replace the insert periodically for a fresh start. Tray inserts come in two configurations and include an extra-deep compartment for a sharps container on the following page.

- Tray features a supply drawer, side pockets, and a ratcheting handle with soft rubber grip that rotates out of the way for easy access
- Each tray includes either a 13 mm or a 16 mm Heathrow OneRack® test tube rack and two disposable polystyrene inserts
- Additional inserts sold in packs of 4 in two different configurations
- Tray measures 429 x 265 x 172 mm

part no.	description
HS2200A	Droplet Blood Collection Tray with 2 Inserts (Style A) and a 36-Place, 13 mm Test Tube Rack
HS2200B	Droplet Blood Collection Tray with 2 Inserts (Style B) and a 36-Place, 16 mm Test Tube Rack

Designed by phlebotomists, for phlebotomists. The Droplet™ Blood Collection Tray makes everyday working practices easier and safer.

Droplet™ Lid
Cover for the Droplet Blood Collection Tray

Protect the contents of the Droplet Tray with this sturdy lid. Custom designed for a snug fit, the lid provides access to the tray handle in its vertical position.

- Can be secured with cable ties for extra security
- Made of polystyrene and is stackable. Measures 420 x 240 x 205 mm

Keeps contents clean and secure

OneRack®

Test Tube Racks

Tough and more highly resistant to acids, bases, solvents and heat

These durable racks are molded in a single, continuous piece so no assembly required and there are no detachable pieces.

Delrin® fiberglass-reinforced polyoxymethylene (POM) version A:

- Offers the highest chemical and heat resistance (-40 to +140°C)
- Autoclavable, available in half and full rack sizes

Polypropylene version:

- Offers good chemical and heat resistance (0 to 110°C)
- Not recommended for autoclaving, available in the full size for 2 tube diameters

Both versions:

- Have molded coordinates for tube orientation
- Designed to be stable when used in water baths
- Have flat labeling area for easier identification
- Available in 5 different colors. Cases of 8

Work2Store™ & Work2Store™ Micro Expanding Storage Boxes *Single rack, double function*

Reduce sample handling time and the need for several racks when working with samples for cold temperature storage. Patent-pending opening and closing mechanism allows the rack to expand, creating needed room for sample manipulation. Then simply collapse the rack back to its compact form and it is ready for the freezer. Temperature range -80 to 121°C. Two versions now available, the original for holding 1.5/2.0 mL cryo and micro tubes and now the new Micro reversible version for holding 0.5 mL and 0.2 mL tubes

- Instantly creates more working space
- Helps reduce potential cross contamination
- Stops opened microfuge lids interfering with other wells
- Stackable, autoclavable and with alphanumeric well identifications
- Will fit into standard 2" (53 mm) freezer racking

A autoclavable

Flatpack Freezer Boxes

Reusable, economical and moisture resistant plastic

These easy self-assemble boxes come flat-packed, ensuring valuable lab space is not taken up storing the boxes before they are needed. Made from corrugated polypropylene, they are more durable than card boxes as they are not susceptible to moisture, so they can be frozen and thawed numerous times without a problem.

- Pre-assembled dividers included with the boxes.
- Store down to temperatures of -80°C
- Holds 81 x 12 mm (max. diameter) tubes in a 9 x 9 format
- Complete with well dividers in packs of 10

Store down to temperatures of -80°C

Cardboard Micro Tube Boxes

Safe micro tube storage

These low profile boxes are available in two sizes to accommodate standard 0.5 mL and 0.2 mL micro tubes and vessels of a similar size. They are designed to ensure that the tubes contained will remain in their appointed well even if the box is tipped or knocked when the lid is in place. They come complete with well dividers in packs of 10

- Store in mechanical freezers or vapor phase LN₂*
- Will fit into most standard freezer racking
- 0.2 mL tube (9.5 mm max) version has 169 wells in a 13 x 13 format
- 0.5 mL tube (12 mm max) version has 100 wells in a 10 x 10 format

81-Well Microtube Storage Boxes

Compact footprint for microtube and cryogenic vial storage

- Store 1.5/2.0 mL microtubes or cryogenic vials in these newly designed polypropylene storage boxes, with an easy-open, friction-fit lid
- High transparency, but with a strong identifying coloration, and distinctive wave design
- Uniform wells with location ID. Capacity indicated on the outside of the box
- Black, light-tight version available for light sensitive samples
- Frosted labeling patch. Autoclavable
- Measures 130 x 130 x 47 mm and will fit into most standard freezer racking. Pack of 5

Arctic Squares® Polycarbonate Cryostorage Boxes

Safely store vials from -196 to +121°C in mechanical freezers as well as liquid nitrogen!

Our polycarbonate boxes are designed with unique features to help orient, identify and access vials with ease.

- Hinged lid with built-in stop allows easy one-handed access to samples (not on 25 place)
- Forward-sloped base and high contrast indexing on the transparent lid ensure quick visual orientation
- Magnetic tipped forceps supplied with styles B, D, E and F. Help pick vials and remove boxes from freezer racking
- All boxes have vent and drainage holes, are stackable and autoclavable

A. 5 x 5 Array Boxes

Ideal for small sampling. Hold 25 vials. Friction fit, slide-on lid.

B. 9 x 9 Array Standard Boxes

Hold tubes in an easy-to-pick formation. Popular array makes sample retrieval simple. Hold 81 vials. Hinged lid. Includes forceps.

C. 9 x 9 Array Tall Boxes

Designed for larger vials—use with all common sizes up to 5.0 mL. Hold 81 vials. Hinged lid.

D. 10 x 10 Array Boxes

Hold the maximum number of tubes in standard footprint. Works best with internally-threaded vials such as True North® Cryogenic Vials (page 3). Hold 100 vials. Hinged lid. Includes forceps.

E. Empty Boxes

Ideal for storing various containers or a selection of different sized vials. Hinged lid. Includes forceps.

A autoclavable

Forceps included with boxes B, D, and E. Pick vials or remove box from freezer rack. Includes embedded magnet for easy storage

Foam Tube Racks

High storage, minimal footprint

Lightweight microtube racks are ideal for long-term studies or tube storage.

- Two-piece racks are constructed of expanded polystyrene (EPS) foam
- Extra spacing between wells allows easy gripping with fingertips
- Racks stack securely with nesting features on lid and base
- Holds 1.5 and 2.0 mL microtubes. Pack of 10

part no.	wells	l x w x h, mm
HS4282	100	336 x 95 x 73
HS4283P	50	210 x 110 x 71

Cryogenic Vial Holders

Safely store and transport cryogenic vials

- Well tabs allow one-handed opening and closing of vials that have a slot feature
- Embossed index numbers and squared, upper left corner provide easy orientation
- Ribbed grips make handling with gloves easier
- Made from polycarbonate—can withstand both cryogenic freezing and autoclaving
- Measures 105 x 20 x 23 mm. Pack of 4

A autoclavable

Fits True North[®] and other major vials and canes

PVC Cryogenic Cane Sleeves

For extra security and sample safety

- Clear plastic sleeves protect vials in aluminum canes during handling and storage
- Safe for cryogenic freezing
- More durable than cardboard sleeves
- Transparency allows sample identification without removing sleeve
- Measure 14.5 mm dia x 275 mm long. Pack of 100

part no.	description
HS23210	Clear Cane Sleeves

Cryogenic Vial Canes

Organize cryogenic samples in dewars

Aluminum canes hold vials for freezer storage or immersion in LN₂ dewars.

- For use in liquid and vapor phase; use approved vials only
- Canes bend to fit all major cryogenic vial brands. Pack of 12

part no.	length	no. of vials	vial size
HS23205	290 mm	5	up to 2.0 mL
HS23206	300 mm	6	up to 5.0 mL

Mini Coolers

Protect temperature-sensitive samples at the bench or in the freezer

Ideal for keeping PCR® reagents, enzymes, and other biochemical reagents cool while working at the bench. Filled with insulating gel, the Mini Coolers can also be used for controlled sample freezing and for longer temperature retention samples.

- Polycarbonate construction with rubber non-slip feet
- Gridded and keyed one-position lids for easy sample identification
- 0.5 mL tube adapters supplied as standard with the 0.5–2.0 mL tube size versions
- Temperature-retention graph supplied with each of the 7 styles
- Versions available for 0.5 and 1.5/2.0 mL microcentrifuge tubes and cryogenic vials and a 96-place version for 0.2 mL tubes and assay plates

Cool Containers

Conveniently nest lid beneath bucket or pan

Made of rigid single-molded polyurethane to provide the durability needed for chilling temperature-sensitive samples. With excellent insulation properties for the ultra cold, Cool Containers are ideal for ice, ice-salt slurries, and more.

- The close-fit lid keeps evaporation to a minimum and features a comfortable recessed knob
- The lid and bottom of the bucket/pan are keyed to fit together
- For low-temperature use to -196°C at 1 bar
- Taper design for easy stacking
- Precise pour spout and generous handles
- In four, color-coded, user-friendly sizes

Ideal for ice and ice/salt slurries

Freezer Thermometer

Protect frozen and chilled samples from potential spoilage

Monitor temperatures inside your freezer or refrigerator with the added convenience of sound and flashing LED lights to alert out-of-range temperatures.

- Suction cup attaches the probe inside freezer/refrigerator while the thermometer secures to the outside with hook-and-loop tape
- Large digital display shows freezer/refrigerator temperature plus ambient temperature
- Set freezer range: 14.9° to -9.4°F (-9.5° to -23°C); set refrigerator range: 35.6° to 46.4°F (2° to 8°C)
- Switches toggle for freezer or refrigerator monitoring and $^{\circ}\text{F}$ or $^{\circ}\text{C}$
- Includes one AAA battery
- Unit measures 136 x 19 x 28 mm; probe cable measures 0.9 m; probe measures 5 mm OD x 17 mm L

Weighing Boats

Our flexible polystyrene boats feature smooth surfaces to provide accurate pour-outs with minimal sample loss.

- Select white, black, or blue for best color contrast to ensure sample is completely removed
- Biologically inert and resistant to dilute and weak acids, aqueous solutions, alcohols, and bases. Temperature range -10 to 70°C (14 to 158°F)
- Can be used with microwave moisture analyzers
- All are FDA/food-grade compliant

A. Standard Weighing Boats

Boats are shallow with a wide, flat bottom to resist tipping.

- Rounded corners simplify transfer
- Antistatic versions available
- 3 color, and sizes
- Pack of 500

B. Diamond-Shaped Weighing Boats

Features a diamond shape that easily flexes for accurate pouring and a wide, flat bottom to resist tipping.

- Antistatic versions available
- 2 color and 4 sizes
- Pack of 500

D disposable

Wash Bottles Safety Labeled Self Venting

Clear and informative product safety information

The information provided on the front of each bottle is specific to the product contained and includes the following – the Chemical Abstract Service (CAS) No., National Fire Protection Association (NFPA) codes and symbols, Protective Equipment Symbol (PES), Target Organ Information and Hazard Codes. You also have the option of using other liquids within the bottles and creating the appropriate safety information on the outside of the bottle by using the 'Self Labeling' versions. The closure and stem are molded in one piece to make them leak-proof. The angled neck and tip provide a uniform stream of liquid and the tip can be cut back if required to increase the flow.

- Wide bottle mouth makes filling easier
- Non-metallic vent that prevents the risk of solvent leakage
- With the exception of the bottle designed for Sodium Hypochlorite, which is a white LDPE bottle for light protection and has a HDPE closure, the bottles are made from LDPE, with a PP closure
- Six named chemicals, a self labeling** and assorted pack of bottles to choose from
- 500 mL bottle size, supplied in packs of 6

*Assorted pack includes one of each, Acetone, Distilled Water, Isopropanol, Ethanol, Sodium Hypochlorite and a Self labeling bottle

**Self labeling bottles must only be used with chemicals that are safe and compatible with LDPE

Eyewash Stations

Essential first aid for your eyes

- Frame is equipped with top and bottom holes for easy mounting to any flat surface. Screws provided
- Each station includes attached mirror, instruction cards, and one or two 1 L (32 oz) dousing bottles
- Reusable bottles ship empty. Fill bottles with saline solution or distilled water as required by your local regulations
- Loose fitting lids ensure nozzles remain dust-free between uses. Easy, one-handed inversion provides steady rinsing
- Nozzles are contoured to fit eye socket comfortably and diffuser ensures even flow
- English, Spanish, French, and German labels and instruction cards included. Not a substitute for plumbed eyewash apparatus

DURAPORTER™

Transport Box

Secure, clean, visible

Ideal for transporting biological and clinical samples, as well as instruments and products that you want to keep clean and dry under testing environmental conditions. The clarity of the DuraPorter™ enables the user to visibly check sample integrity, so that it can be opened using the right precautions.

- Polycarbonate construction and available in three colors for user/owner identification
- Silicone water-tight seal and three lid clasps provide secure closure
- Carry handle folds neatly into body space allowing the units to be stacked
- Lid opens a full 180°, allowing total access to contents and making it easier to clean
- Will accommodate 13 and 16 mm tubes in a 72-place OneRack™ (see page 18), or similar sized/brand of rack
- Use the separators provided to create your own compartment sizes, or use empty to transport larger products and equipment
- Autoclavable and measures 380 x 196 x 160 mm

Colony Counter

Ideal for rapid, accurate counts

eCount™ combines a multi-function electronic counter with a Sharpie® pen for marking to prevent missing or double-counting colonies.

- Light, ergonomic body is balanced for easy manipulation
- Select between an audible beep or an LED flash to acknowledge count
- Store up to 32 separate counts and display the total of all counts
- Count up/down verification
- Quick and easy to change between different colored markers (sold separately, page 45) to check different colony counts in the same view
- Lock counter off to allow use of the marker without registering more counts
- Package includes, eCount™, a black Sharpie® marker pen, a 3V CR1225 battery, weighted stand and a thumb button which allows you to use the eCount™ as a digital tally counter as well!

part no.	description
HS120000	Electronic Colony Counter Package

Microbiology Plating out, colony counting and recovery made easy with reliable and innovative products.

Complete system for easy counting

Weighted stand for bench top use

Thumb Button allows you to use the eCount™ as a digital tally counter as well!

eCount™ Package Includes:

- Sharpie® pen for highly visible marks on both plastic and glass
- Long-life button battery
- Includes NEW Hand tally adapter Counts without marking
- Weighted stand for convenient bench top use

Sharpie® Marker Pens

Permanent clear and fine marking made easy

Specially formulated, water-resistant and freezer safe marker pens. When used on dry glass, metal, or porcelain surfaces, ink will not smear when subjected to water. Requires the use of solvent if removal is required. Perfect to use on Diversified Biotech labels (see page 86, 87) and recommended replacements/extras for the eCount™ Colony Counter (opposite page).

Dual-Tip Colored Sharpie® Pens

- Bright selection of colors offers instant visual recognition
- Combines a fine tip at one end and an ultrafine tip at the other end, perfect for a larger range of labeling requirements
- Supplied as a pack of 8 with one of each of the following colors—Berry, Black, Lime, Navy, Orange, Purple, Sky Blue, and Turquoise

Standard Black Sharpie® Pens

- Strong fine tip will keep its shape much longer than other brands of pens
- Long lasting, supplied in packs of 12

MagLab™ Series

Create lab storage space—off your bench top

Easily organize common lab products off your bench top with the MagLab™ storage system. Each rack is made of robust ABS plastic in a bright translucent color and features four powerful magnets for a secure hold onto most metal surfaces, or create your own holding point with the metal plate provided.

- MagRack™ holds four 50 mL tubes and nine 15 mL tubes
- MagWipe™ holds a standard (110 x 210 mm) Kimwipes® box
- MagPette™ holds two pipettors (fits most popular styles)
- MagBox™ holds miscellaneous accessories
- Use the MagLab™ self-adhesive mounting plates for use on non-metallic surfaces
- The MagLab™ Series is available individually or as a pack of four

Modular Glove Box Holders

Available infused with **Microban®** for anti-microbial protection!

The Anti-Microbial version (blue) is ideal for use in clean rooms, hospitals, and microbiological work areas. The Microban additive prevents growth of molds and bacteria.

- High-impact, durable resin is resistant to harsh cleaning solutions
- Modular design allows single boxes or horizontal stacking for multiple box holder
- Universal fit for most major brands of glove boxes
- Mounting screws included
- Each unit measures 254 x 156 x 97 mm. Pack of 3

part no.	description	color
HS120258	Modular Glove Box Holder	White <input type="checkbox"/>
HS23491A	Modular Glove Box Holder, Anti-Microbial	Blue <input checked="" type="checkbox"/>

Microban® antimicrobial protection has been built-in to our anti-microbial glove boxes during manufacturing. When microbes, such as bacteria, mold, and mildew that can cause stains, odors and product deterioration come in contact with the glove box surface, Microban protection penetrates the cell wall of the microbe and disrupts key cell functions so that the microbe cannot function, grow, or reproduce. Microban protection is an intrinsic part inside and at the surface and will not wash off or wear away for the useful lifetime of the glove box.

NEW

Glove Box Holders

Keep gloves organized and ready for immediate use

Free up benchtop space by mounting holders on wall for easy dispensing of gloves.

- Clear acrylic holders include a polyester foam insert to securely hold a range of glove box sizes—snug fit ensures easy removal of gloves
- Sturdy, epoxy-coated steel wire racks are an economical solution
- All holders fit most major brands of boxes
- Mounting screws included

HS234525R	Replacement blades for ABS dispenser, pack of 5		

Parafilm® is a registered trademark of Bemis Company, Inc.

Acrylic Dispenser for Parafilm® Sealing Film

Heavy-duty construction for increased durability

Store, dispense, and cut Parafilm®, tape, labels, and Tough-Tags®.

- Strong, crystal-clear acrylic dispenser makes your film supply visible and features a serrated cutting blade
- Dispenser holds one or two 50 mm (2-inch) rolls, or one 100 mm (4-inch) roll

part no.	description	w x h x d, mm
HS234524	Acrylic Dispenser	119 x 168 x 175

Parafilm® Sealing Film

Colorless, moisture-proof film molds to surface

Parafilm® M is a semi-transparent, flexible, thermoplastic film with two-way stretch.

- Non-toxic and free from plasticizers, primarily composed of polyolefins and paraffin waxes offering good resistance against acids, alkalis and some organic solvents—use not recommended with acetone, diethyl ether or tetrachloride
- Will stretch 200% and adhere to irregular shapes and surfaces to provide a secure seal

D disposable

part no.	film width	roll length	w x h x d, mm

HS234526C	100 mm (4-inch)	75 m	135 x 107 x 132

DuraSEAL™

Durable heat-resistant, solvent-proof Laboratory stretch film

- Heat-resistant and microwave compatible for temperatures up to 100°C (boiling water)
- Highly resistant to solvents and caustic agents
- Film can stretch 500–800% before breaking or tearing
- Forms an airtight barrier and is twice as long as some other brands!

D disposable

**Stretches

Foil Rolls

Designed for easy use and minimal waste

Custom-sized pieces of foil can easily be created for covering small surfaces such as beakers, flasks, tubes and Petri dishes.

- Ideal for autoclaving, freezing, incubating, protecting labware, lining, sealing, and general storage
- Two sizes available. Designed to fit the Mini Bin™ Foil Dispenser

D disposable

part no.	description	roll length

safety lid**

Mini Bin™ Foil Dispenser

Safely cut foil to any size

The Mini Bin Foil Dispenser is a great alternative to wasteful giant-sized foil rolls and expensive pre-cut foil squares.

- Compact to fit in limited work space areas and easy to transport
- Safe to use—load the foil roll, press the cover to activate the safety guard
- Foam strip prevents foil retracting back into unit
- For use with 102 mm or 153 mm (4 or 6 inch) length foil rolls (sold separately)
- Measures 190 x 100 x 112 mm

part no.	w x h x d, mm
HS23520A	190 x 100 x 112

Timers & Notebooks

With a wide selection of timers, track single or multiple tasks and record your results in our high quality notebooks.

Laboratory Notebooks

For recording research data, experimental procedures, and design ideas, use these notebooks to keep information safe and well organized.

- Numbered, acid-free, pages include spaces for title, project number, book number, date, and witness signature
- Lined notebooks feature college-ruled pages for easy report writing
- Covers for all versions are waterproof and chemical-resistant
- All notebooks contain periodic and conversion tables in the back
- Measures 218 x 281 mm

Time Tracker®

Makes it easy to monitor your process from a distance! Designed like a traffic signal so the meaning of each light is intuitive. Green light means less than half done; yellow means more than half done, and red means finished.

- Programmable time
- Six different audible alerts. With LCD display
- LCD with 8 mm high characters, 10 characters across. Operates on 110 VAC adapter (included)
- Measures 112 x 118 x 230 mm

part no.	description
HS24651	Time Tracker

Time Tracker® Mini

Based on the Original Time Tracker, the Mini is an economical option intended for easy use.

- Total alarm time ranges from 5 to 120 minutes in 5-minute increments
- Visual indicator features lighted dome. Green light during count down; yellow for the designated "warning" time; red when time has expired
- Volume control and audible warning alarm
- Requires 3 AAA batteries, not included. Measures 83 x 83 x 121 mm

part no.	description
HS24653	Time Tracker Mini

A. Pocket Timer/Stopwatch/Clock

- Four independent timing channels with visual and audible alarms
- Use as a stopwatch, a count up/down timer, or a clock
- Includes spring clip and magnetic back

B. Triple Timer/Clock

- Three channels to count up/down with
- Simultaneous display, time-out, and 60 second audible alarm
- Channels may be started independently or simultaneously
- Timer automatically counts up after counting down to zero
- Memory recall

C. Digital Sand Timer/Clock

- Watch the digital sand gradually disappear over time just like mechanical sand timers
- Audible and visual alarms
- Flip one way to display count up/down timer, flip the other way to display the clock in 12- or 24-hour mode
- Memory recall

D. Big-Digit Dual Timer/Clock

- Display clock and timer simultaneously, or two independent timers
- Use one timer to count up, or use two timers to count down independently
- Audible and visual alarm

E. Multi-Function Stopwatch/Clock

- Quick start, quick stop timer features time, split, hourly chime, calendar, alarm
- 100 cm neck cord

F. Four Channel Timer/Clock

- Independently or simultaneously set time on four channels
- Audible and visual alarms signify elapsed time
- Easily toggle between channels and clock with top buttons
- Includes spring clip with magnetic back
